-----

What are your reasons for wanting to volunteer with Tourism Prince Rupert?

---

COVID-19 Vaccination

In order to travel on a cruise ship in 2022, all passengers must present proof of vaccination, so locals can rest assured that everyone who disembarks into Prince Rupert has taken the steps to protect themselves and the communities they visit from contracting and spreading COVID-19.

While we will not ask volunteers for their private medical information, we ask that people who have not been vaccinated against COVID-19 to consider refraining from volunteering in 2022, to ensure the greatest level of safety and comfort for our visiting cruise passengers.

Declaration

I agree to make myself available to volunteer as a cruise ship ambassador for the 2022 season to the best of my ability, and to notify the program coordinators of my availability for specific cruise call days.

I have declared all information that might prevent me from volunteering in a satisfactory way.
